Biomass **21** (1990) 323–324

CONTENTS OF VOLUME 21

Number 1

Modeling Pyrolysis Oil Production in an Entrained-Flow Reactor 1
C. W. GORTON, R. J. KOVAC, J. A. KNIGHT & T. I. NYGAARD (USA)

Dry Weight Partitioning Among 36 Open-Pollinated Red Alder Families . . . 11
DONAL D. HOOK, DEAN S. DEBELL, ALAN AGER & DANIEL JOHNSON (USA)

Biomass Yield and Nutrient Removal by Water Hyacinth (*Eichhornia crassipes*) as Influenced by Harvesting Frequency 27
K. R. REDDY & E. M. D'ANGELO (USA)

Influence of Lignin on the Methanization of Lignocellulosic Wastes 43
S. JIMENEZ, M. C. CARTAGENA & A. ARCE (Spain)

Recovery and Removal of uranium by Using Plant Wastes 55
AKIRA NAKAJIMA & TAKASHI SAKAGUCHI (Japan)

Study of the Molecular Weight of Bark Extracts and Products of their Reaction with Formaldehyde 65
CHIA M. CHEN & Y. HATANO (USA)

Short Communication
The Contribution of Biomass to Global Energy Use (1987). 75
J. M. O. SCURLOCK & D. O. HALL (UK)

Number 2

Biogas Plants for Small Farms in Kenya 83
D. L. DAY, T. H. CHEN, J. C. ANDERSON & M. P. STEINBERG (USA)

Evaluating Hybrid Poplar Clonal Growth Potential in a Three-Year-Old Genetic Selection Field Trial 101
LAWRENCE P. ABRAHAMSON, EDWIN H. WHITE CHRISTOPHER A. NOWAK, RUSSELL D. BRIGGS & DANIEL J. ROBISON (USA)

Analysis of Extrusion Compaction of Fibrous Agricultural Residues for Fuel Applications 115
M. O. FABORODE (Nigeria)

Yield Models for *Eucalyptus globulus* Fuelwood Plantations in Ethiopia . . 129
T. PUKKALA & V. POHJONEN (Finland)

Cultivation of *Lemna gibba* under Desert Conditions I: Twelve Months of Continuous Cultivation in Open Ponds 145
MICHA GUY, GILA GRANOTH & JOSEPH GALE (Israel)

Biomass (**21**) (1990) — © 1990 Elsevier Science Publishers Ltd, England. Printed in Great Britain

Short Communication
Nickel as an Accelerator of Biogas Production in Water Hyacinth (*Eichornia crassipes* Solms.) 157
G. S. GEETA, K. S. JAGADEESH & T. K. R. REDDY (India)

Number 3

A Review of Biomass Quality Research Relevant to the Use of Poplar and Willow for Energy Conversion 163
W. A. KENNEY (Canada), J. SENNERBY-FORSSE (Sweden) & P. LAYTON (USA)

Continuous Ethanol Production by Yeast Immobilized on to Channeled Alumina Beads 189
M. K. HAMDY, K. KIM & C. A. RUDTKE (USA)

Anaerobic Treatment of Baker's Yeast Wastewater: I. Start-Up and Sodium Molybdate Addition 207
K. V. LO & P. H. LIAO (Canada)

Catalytic Conversion of Microalgae and Vegetable Oils to Premium Gasoline, with Shape-Selective Zeolites 219
THOMAS A. MILNE, ROBERT J. EVANS & NICHOLAS NAGLE (USA)

Short Communication
Fuelwood Characteristics of Some Mountain Trees and Shrubs 233
B. P. BHATT & N. P. TODARIA (India)

Number 4

Methane Fermentation of Selected Lignocellulosic Materials 239
XINGGANG TONG, LAURENCE H. SMITH & PERRY L. McCARTY (USA)

Anaerobic Digestion of Cheese Whey Using an Upflow Anaerobic Sludge Blanket Reactor: III. Sludge and Substrate Profiles 257
J. Q. YAN, K. V. LO & P. H. LIAO (Canada)

Influence of Planting Geometry on Photosynthetically Active Radiation Interception and Dry Matter Production Relationships by Pearl Millet 273
S. D. JARWAL, PHOOL SINGH & S. M. VIRMANI (India)

Screening Microorganisms for Chitin Hydrolysis and Production of Ethanol from Amino Sugars 285
R. M. CODY, N. D. DAVIS, J. LIN & D. SHAW (USA)

Modeling Algal Productivity in Large Outdoor Cultures and Waste Treatment Systems 297
JOHAN U. GROBBELAAR (Republic of South Africa), CARL J. SOEDER & EBERHARD STENGEL (FRG)

Growth of *Methanobacterium thermoautotrophicum* on H_2–CO_2: High CH_4 Productivities in Continuous Culture 315
JEAN-PAUL PEILLEX, MARIE-LAURE FARDEAU & JEAN-PIERRE BELAICH (France)
